U.S.D.C.  
Office of the Clerk  
55 Pleasant St  
Concord, NH 03301

Dear Ms. Phelps:

Thank you very much  
for your assistance regarding to my regus 4/2/14  
letter.

I got all the copies of motion 36 that I  
need to file right back to this Court and I  
got format of the transcript in writing.  
One of my problem and don't just understand  
that where is the rest of the hearing - like I  
said in motions with this Court there was open  
argument when my lawyer told the Court in  
2004 hearing he - the Nolo contendere plea about  
my background and its not true - and the threats  
by the Court. And I'm 100% sure that this is  
not the Judge Lawrence. I rewrote motion 36  
and I have all these issues lined up.

I'm not the Plymouth County Immigration Issues  
deportation due to the 2004 conviction 2008, I was  
given six months if not deport I will be release.  
Fighting immigration is a big game of imprisonment  
you have to be in jail for you to fight these  
issues. Sometime years. I'm a refugee and "Ice" know  
that I cannot be deported to my own country  
due to the civil war. UN article 33, 1952. But ice is  
pushing the issue knowing its in violation of that law.

So, I asked to be deported on March 6, 2013, and nothing been done by ICE. Their excuse that they need travel document and the Sudanese Gov need to issue that for ICE. One of my big issue which Sudan they trying to send me to South or the North. My family from the South, but I was order deport to the North its danger for me as a Southern to be in the North at this time. There are fighting right now. Even the Southern themselves.

From this Jail, the law library don't have nothing. Just Immigration Law. I'm doing lots of hard writing and I know the Court is wanting this motion be filed (36) I just need extra time to make copies and find good case law to support my arguments. My books should be here next week or after. Soon I get hurt, I will refile.

Sincerely yours,

Writ Writer
